Apple TV*

Apple TV - February 26, 2010

Join Brad Brown, Apple TV owner, to find out more about one of Apple's most under-appreciated products.

Apple TV redefines what your HDTV can do. A new design provides instant access to your favorite content. Choose from a large selection of on-demand HD movie

rentals, or purchase select movies and enjoy special features with iTunes Extras. Buy and watch your favorite HD TV shows the day after they air. Listen to your iTunes music or Internet radio on your home

theater speakers. Show off your photos in high definition. Even watch YouTube. All from the comfort of your couch.

Top Features

- Get instant access to your favorite content with a new look.
- Rent or buy HD movies with Dolby Digital 5.1 surround sound. Select movies include iTunes Extras.
- Buy the latest HD TV shows the day after they air.
- Enjoy your iTunes music or Internet radio on your home theater

system. Select albums include iTunes LP.

- Rediscover your music library with Genius Mixes.
- Enjoy your photos in high definition or view Flickr and MobileMe Gallery photos.
- Easily browse photos from iPhoto by Events and Faces.
- Enjoy over 175,000 podcasts, including some of the best in HD.
- Watch millions of YouTube videos.
- Instant entertainment—simply connect one HDMI cable.

Suddenly your HDTV is everything it should be!
